

GERISCRIP PHARMACY

PREMIER PROVIDER OF PHARMACEUTICAL SOLUTIONS IN POST-ACUTE CARE

Geriscript Pharmacy

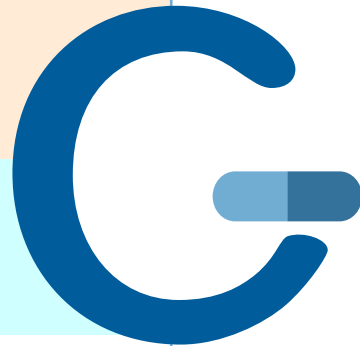

GERISCRIP T PHARMACY endeavors to provide technical innovation and outstanding service. Its operations capability and performance are based on a sophisticated computer system, tight financial controls, and a strong pharmaceutical buying capability. To maintain competitive position, the Company strives to introduce new services and expand its application of systems and technologies. Changing reimbursement systems are clearly the most pressing issues confronting the post-acute care industry today. GERISCRIP T PHARMACY is prepared to meet your facility's specific needs with flexible, customized programs, including successful formulary management and data analysis.

A leader in providing innovative, facility-specific pharmaceutical care and ancillary services to the post-acute care industry.

Established in 1999, GERISCRIP T PHARMACY was developed with the following core principles:

- Be the premier provider of post-acute pharmacy, recognized for the highest customer service levels with individualized client services.
- Provide exceptional clinical and customer service programs to exceed customer expectations.
- Be the pharmacy partner who provides pharmacy solutions.

GERISCRIP T PHARMACY is a locally owned and operated pharmacy located in Totowa, New Jersey.

GERISCRIP T PHARMACY is based on the team concept. When you partner with GERISCRIP T, you will deal with an entire team of professionals working together to provide your organization with the highest quality of services possible. Our team of professionals includes Infusion and Clinical Pharmacists, Nurse Consultants, Billing and Medical Records personnel working closely together, with your facility's administration and staff.

Many of the GERISCRIP T PHARMACY associates have previously worked in the post-acute care marketplace. They have joined GERISCRIP T because of the core values that have been established, and wanting to align themselves with a private organization that can adapt quickly to the changing healthcare needs of our clients.

THE PRESCRIPTION
TO QUALITY CARE

QUALITY ASSURANCE

GERISCRIP PHARMACY's core principles are geared towards providing the highest standard of pharmaceutical services to the post-acute industry. Our Policy and Procedure Manual guides us to ensure compliance with Federal and State Regulations. We train and monitor our staff to make sure that they adhere to pharmaceutical

and clinical standards of practices.

We utilize several Quality Assurance programs and tools in the pharmacy. We have a system for the documentation and trending of all medication incidents. Each incident is investigated comprehensively for "root-cause analysis" and for appropriate corrective actions.

We utilize a triple check system for every medication that leaves the pharmacy. Additionally, we track facility delivery times to ensure the prompt delivery of medications to each facility.

Under the efficient supervision and management of our esteemed Chief Pharmacist, GERISCRIP PHARMACY continues to be a leader in the provision of pharmaceutical services in Post-Acute Care.

CUSTOMER SERVICE

Customer Service is an integral part of our company's core values. We continually strive not only to meet but to exceed our clients' expectations.

We solicit ongoing feedback from our staff members who interact with our customers. Pharmacy services are extremely interactive within a facility due to the nature of our multidisciplinary services. With our Pharmacists, Nurse Consultants, Medical Records Staff, and Billing Personnel - all working with a facility on a regular basis - we have many opportunities to discover any service issues that might arise.

Our overall goal is to have open communication with our clients in order to support them with the services, information, and tools necessary to provide effective and comprehensive health care in this dynamic environment.
